About US

CIDB Gradings

6EP, 6GB, 6CE and 6ME

This is a great validation for us and a huge opportunity for us to showcase our collective talents and our unparalleled innovation towards helping you meet your engineering services or infrastructural objectives.

Ponontle Information Systems trading as Ponontle Construction REG NO:2006/219372/23 is a privately-owned, diversified, engineering and project management company founded and registered in 2006. We are based in South Africa with offices in Gauteng, North West, Limpopo and Free State . Ponontle Construction has the ability to deliver projects nationally, even internationally, depending on the client's needs. Our vision is to become the preferred supplier of electrical, mechanical, building and civil engineering projects and project management services for all sectors – in South Africa and beyond. We hope to achieve this by providing a wide range of services when engaging in small, medium and bigger projects for clients. This is with the tangible aim of developing a long-term relationship for bigger opportunities.

Our vision is to be an industry leader in Mechanical, Electrical, and Civil Works, as well as Project Management – delivering innovative, reliable, and integrated solutions that shape the future of infrastructure and development.

Our Expertise

At Ponontle Construction we are tailored to serve all sorts of engineering and project management services, including, but not limited, to:

1. Civil Engineering Works – this includes:

- 1.1. Water and Sewer Reticulation
- 1.2. Bulk Water Supply, and
- 1.3. Roads and Storm water builds.

2. Mechanical Engineering Works – this includes:

- 2.1. HVAC Plants
- 2.2. Chiller Plants
- 2.3. Pumps and Motor
- 2.4. Water Purification
- 2.5. Waste Treatment Plants and Substations
- 2.6. Cooling Towers
- 2.7. Humidifiers and Cold Rooms, and
- 2.8. Maintenance, Supply and installations of Air Conditioners.

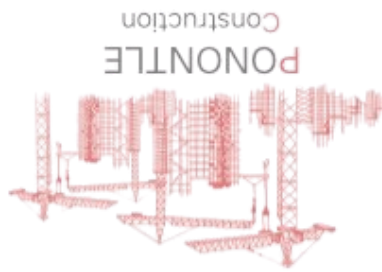

3. Electrical Engineering services – this includes:

- 3.1. HC Reticulation
- 3.2. Residential LC installations
- 3.3. Transformers
- 3.4. Standby Generators, and
- 3.5. MV and LV switchgear

4. Urban & Rural Development services – this includes:

- 4.1. Solid Waste Management, and
- 4.2. Sports and Recreational Facilities

Our Services

Our comprehensive service boutique allows us to serve our clients with Turnkey Projects. This gives you the liberty to focus on your core business, while we focus on helping you achieve your infrastructural and engineering objectives.

Our growing portfolio of clients spans both private and public sectors. The growing percentage of referrals by our clients underscores our quality focus and value for money disposition which we strive for with every assignment.

We achieve this through our extensive team skills which encompass all aspects of implementation and operation, including business requirements definition, development of functional specifications for client approval, system design, and overseeing development teams to fit specific client needs.

Our team is energetic, skilled and has the pedigree to handle projects of varying sizes, from small to large. The core team's brief profiles are below, for ease of reference: Alive to the government focus to transform the economy, our client can rest assured that they are dealing with a company which is 100% Black-owned and 100% Black-managed. In the transformation scorecard we are 100% compliant with all compliance
